USB Bluetooth Dongle Driver

X1

Getting started

To use the **UD2 USB Bluetooth Mini Dongle**, you must first install the software onto your computer.

Installing the software

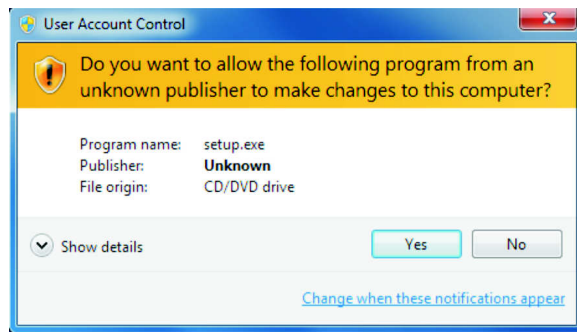

Turn on your computer. Insert the driver software CD into your computer's CD-ROM drive. If setup does not begin automatically, click **Start, Run**, then enter **D:\Setup.exe** (where D: is the path of your CD_ROM drive) and then click OK. The InstallShield Wizard will start.

1.

Click **Run setup.exe**.

2.

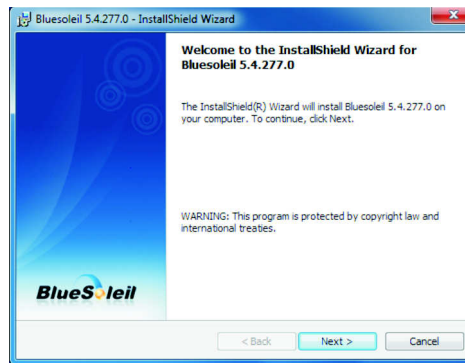

Click **Yes**.

3.

Choose Setup Language and click **OK**.

4.

Click **Next**.

5.

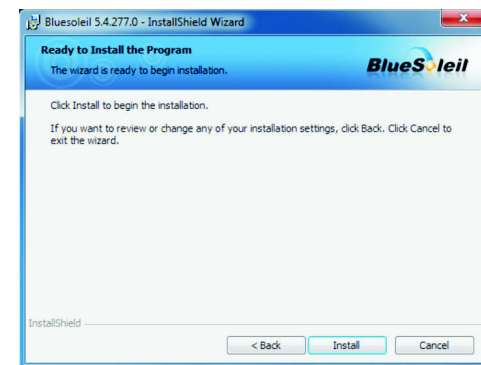

Select **"I accept the terms in the license agreement"**, click **Next**.

6.

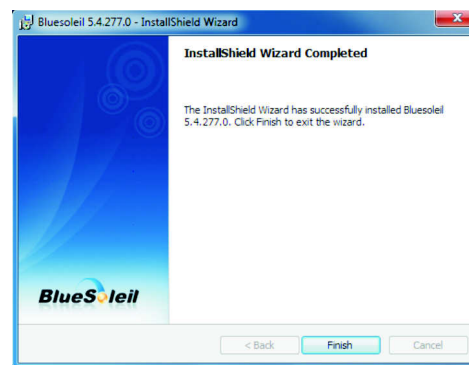

Click **Change** if you want BlueSoleil to be installed into a different folder. Or just click **Next** to continue with the installation procedure.

7.

Click **Install** to begin the installation.

8.

Click **Finish** to exit the installation wizard.

9.

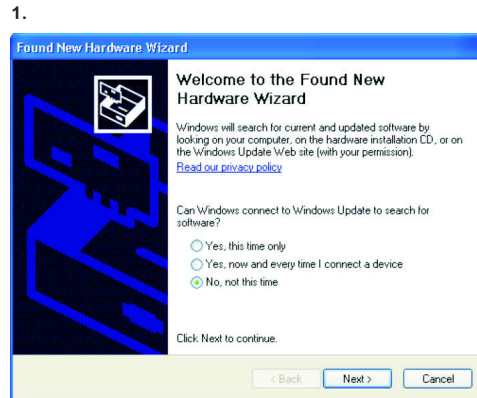

Click **Yes** to restart your system after installation.

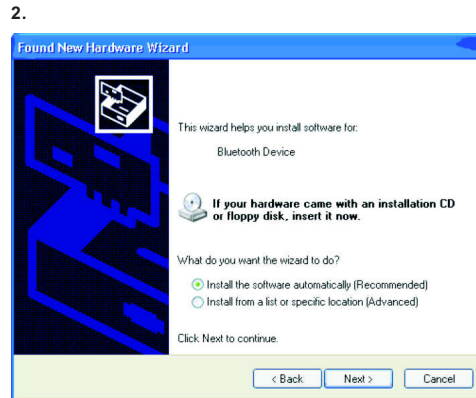

Installing the hardware

To simply connect the **UD2 USB Bluetooth Mini Dongle** to an available USB port of your computer after the installation of Bluetooth application.

If it cannot be installed automatically, you have to follow the below procedure when Found New Hardware Wizard is open:

Select if you want Windows to connect to Windows Update to search for software or not and click **Next**.

Select **"Install the software automatically (Recommended)"** and click **Next**.

Click **Finish**.

Start the IVT BlueSoleil software

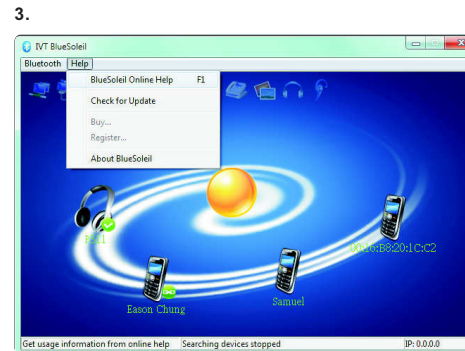

To start BlueSoleil double click the icon on your desktop . Or you can go to **Start → All Programs → IVT BlueSoleil → BlueSoleil**. Or open the Bluesoleil through the  icon locating in the system tray.

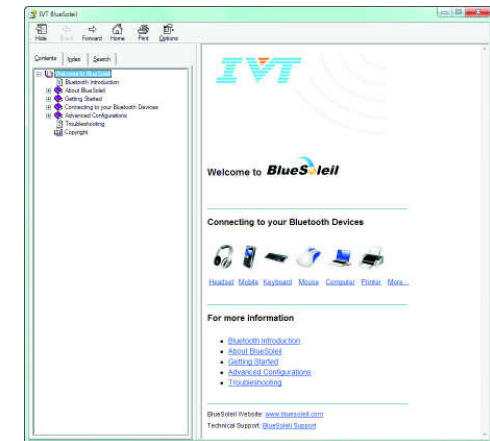

Right click the icon, select **"Display Classic View"** from the Pop-up menu to open the application main window.

Click on the red ball to start or stop searching for Bluetooth devices in range.

For more information about the BlueSoleil, please see its Online Help. You can start the Online Help by clicking **Help → Contents and Index** from main menu or press the **F1** key.
